A practical toolkit for integrating eLearning in Higher Education Curricula

Building the capacity of HE teaching staff, academics, and learning designers in integrating eLearning into their educational programmes

Axis 2 - Design and develop an eLearning course / ADDIE model to design eLearning courses

ONLINEHE:A practical toolkit for integrating relearning in Higher Education Curricula

https://onlinehe.eu/

CONTENT

ANALYSE THE TOPIC

ANALYSE THE TOPIC

1. Define aims, goals and learning outcomes

2. Identify target groups

3. Identify desired and/or possible approaches

4. Identify the learning environment and delivery options
(know your platform and recognize possible approaches)

CHOOSE THE TOOL

CHOOSE THE TOOL

1. Define implementation tools

2. Apply systematic approach to course content and the manner of knowledge transfer

3. Define the time frame of the course, ECTS...

4. Define the materials

5. Define activities of each participant in the process

6. Define the feedback mechanism

CREATE THE CONTENT

CREATE THE CONTENT

1. Use the data from previous two stages to create concrete content

2. Produce/plan/foresee concrete tasks and activities

3. Produce/plan/foresee materials and/or resources

PRESENT AND DISCUSS

PRESENT AND DISCUSS

1. Present the devised course and discuss the chosen channels, tools and instruments, as well as the chosen methodologies and approaches

2. Present the plan for evaluation and further improvement (eportfolio for the purpose of summative assessment of students, for instance, and questionnaires for users for the purpose of the formative assessment of the course)

SUMMARY

SUMMARY

HOW USEFUL DO YOU FIND THIS DISCUSSION?

WILL THIS BE HELPFUL IN YOUR FUTURE PRACTICE?

1) IF YES - HOW?
2) IF NO - WHY NOT?

DID YOU HEAR OR LEARN SOMETHING NEW?

WHAT IS YOUR GENERAL OPINION OF THIS COURSE?

I just need the main ideas

THANK YOU
